

Food Journey with yr 7 at St Katherine's School in Pill, North Somerset – September 2009. Students visited Ham Green Lake, on the way wildlife expert Rob Harvey pointed out the many sources of food there were in the autumn landscape. Rob went on to tell the children about the community of plants and animals that lived in the lake. Lake owner Bill Hunt was able to tell the children other stories about the wildlife as well as show them the chickens and bees that were kept on the lakeside. The children sampled the local honey. The Food journeys project was coordinated by Local Journeys cic and sponsored by Find Your Talent, Quartet Community Foundation, North Somerset Arts Week, Easton-in-Gordano, Pill and Ham Green Community Forum & the Cooperative Society www.localjourneys.org.uk
